

“THE WARMTH OF THE  
FAMILY IS POWER.”

MR. KITTIPAN SRI-BUA-IAM

CEO

PROEN CORP PUBLIC COMPANY LIMITED  
TELECOMMUNICATIONS & ICT INDUSTRY

*Giving back to Wat Bang Khamin School*

Mr. Kittipan Sri-Bua-lam is the current Chief Executive Officer of PROEN Corp Public Company Limited (“PROEN”), which was established in 1997. PROEN’s key business involves Internet Data Center, Internet Service Provider, and Information and Communication Technology Solutions provider. It has currently expanded to Telecommunications Business Services Company.

The entrepreneur graduated from ABAC School of Science and Technology with Master’s degree of Internet and E-Commerce and Rajamangala University of Technology Krungthep (UTK), Faculty of Engineering with degree of Electronics and Telecommunications Engineering.

Mr. Kittipan started his first-job in a multinational Japanese company for three years, which he learnt various business skills. Since young, he always had a dream to set up his own business. In 1997, he established PROEN, amidst Thailand’s Economic Crisis. He received poor earnings in the first few years of his business, however, he was determined to continue his business to pass through the difficult times.

In 2001, Mr. Kittipan started the 1st Online Radio Station in Thailand and in 2003, he established VoIP (Voice over IP) service. He moved the office into CAT Tower providing services such as online and video games, and video streaming.

During the booming of the internet era, Mr. Kittipan developed security and network products for Thai markets and PROEN provided Cloud Base DDos Protection “NEXUSGUARD”, SD-WAN Branch Connect “VeloCloud”, they are SaaS (Software as a Service) and Cloud services under owns brand “SEACLOUD”. He also implemented new technologies services and solutions to markets.

The entrepreneur gradually expanded his business to provide web hosting, web designing, domain name, and web developing services. Due to Mr. Kittipan’s love in new technologies and his commitment to providing excellent customer service, he receives continuous service contracts and reorders.

Mr. Kittipan is widely recognised by his peers and industry observers locally and internationally. Throughout his illustrious career, he has received various honours bestowed upon him by international institutions. In more recent years, these include “Quality Person of the Year 2017” and “Quality Person of the Year 2018” held by The Foundation of Science and Technology Council of Thailand. These award recognises business people who have shown good examples of applying science and technology to be effective both in their work and the nation. Furthermore, under his leadership, PROEN received 2017 best corporate Enterprise Reseller Award by CISCO, 2018 Best Corporate SME Award from Thailand Government and 2018 Shining Star Award from HUAWEI.

### **An Interesting Side of the Entrepreneur**

Mr. Kittipan loves to travel to rural areas to be in touch with beautiful nature and fresh air. Besides, he loves motorbike. His favourite brand includes Ducati and Harley-Davidson. To the entrepreneur, getting out of the busy city to embark on an adventure in the country takes on a refreshing perspective, with that he gains back his energy to lead the team. As someone who takes good care of his mental health, Mr. Kittipan also regularly practices meditation. Being a family lover, he strongly believes in the quote that “The warmth of the family is power”.

*PROEN Internet Data Center (IDC)*

*“Under Mr. Kittipan’s leadership, PROEN currently has the largest domestic bandwidth and leading in Thailand ISP & IDC market. The company is fast growing in innovative technology. Mr. Kittipan hopes for his business to be the country’s leading internet data center, internet service provider, information telecommunication technology turnkey solutions provider and telecommunications creator and provider which prime choice in the ASEAN market.”*

## Future Plans

Under Mr. Kittipan’s leadership, PROEN currently has the largest domestic bandwidth and leading in Thailand ISP & IDC market. The company is fast growing in innovative technology. Mr. Kittipan hopes for his business to be the

country’s leading internet data center, internet service provider, information telecommunication technology turnkey solutions provider and telecommunications creator and provider which prime choice in the ASEAN market.

His mission is to focus on innovative technology, to create effective products and services, to determine to develop personnel in specialised expertise, to strive to develop excellent services, to focus on strengthening as well as managing the development of the network system to build trust with customers, and to maintain international quality standards for information security and quality management.

Due to PROEN’s high growth in sales, revenue and business profit, Mr. Kittipan aims for his company to be listed in the Market for Alternative Investment of Thailand Stock Exchange by 2020.
